

INFORMATION SHEET AND CONSENT FOR ONLINE SURVEY

Architectural Education and Profession

(UTS APPROVAL NUMBER ETH18-2931N)

My name is Alex Maroya and I am Research Director of the Architecture Education and the Profession study. This study is funded by the Architects Accreditation Council of Australia, the Association of Architecture Schools of Australia, the Australian Institute of Architects, the Australian Deans of Built Environment and Design, and New Zealand architectural stakeholder organisations.

The aim of the study is to understand and identify ways to improve the experience of architecture academics, students and graduates, and enhance connections between schools of architecture and the architectural profession.

I am inviting you to participate in an online survey of practitioners working in architectural design in Australia, NZ and PNG. The survey should take 10-15 minutes to complete. All responses are anonymous and cannot be attributed to respondents in the project report or any subsequent research.

The survey will ask some questions about your education and career and will seek your views on architectural curriculum, graduate pathways, the relationship between universities and the architectural profession and priorities for the future.

Participation in the survey is completely voluntary. You can also change your mind about participation after starting your response, and abandon completing the survey without consequences.

If you agree to be part of the research, and to research data gathered from this survey being published in a form that does not identify you, please proceed to take the online questionnaire.

If you have concerns about the research that I can help you with, please feel free to contact me on 0413339394 or email alexmaroya@aaca.org.au.

If you would like to talk to someone who is not connected with the research, you may contact the UTS Research Ethics Officer on 02 9514 9772 or Research.ethics@uts.edu.au and quote ETH18-2931N.
